Axio Research Acquisition Co. LLC to Sponsor the 2008 Washington State Biomedical Device Summit

SEATTLE—May 1, 2008-- Axio Research Acquisition Co. LLC, a premier provider of biostatistics services to pharmaceutical and healthcare providers, recently announced that it will be a sponsor at the 2008 Washington State Biomedical Device Summit. The meeting will be held May 15th at the University of Washington Bothell from 4-7pm.

The Summit, the first ever to focus solely on the region's Biomedical Device sector, is targeted to attract 200 guests including executives from the Biomedical Device industry, legislators, government officials, researchers, media, service providers, and economic development professionals. Event highlights include:

- Presentation of the report findings
- Panel discussions by key executives from the region's Biomedical Device industry
- Launch of the Biomedical Device Innovation Partnership Zone (IPZ)
- Showcase of a few of the Biomedical Device products developed in Washington State
- Networking reception representatives from the Biomedical Device sector

About Axio Research Acquisition Co. LLC

Axio Research was founded in 1979 as a corporation dedicated to scientific advancement and discovery. Our founders are internationally recognized experts in the fields of Biostatistics, epidemiology, and medicine. During the past two decades, Axio's range of service has encompassed both government-sponsored clinical trials and full contract research services for commercial clients. Our senior scientists bring a wealth of knowledge and experience to all of our studies. Axio's talented group of employees is dedicated to working with our clients to produce thorough, comprehensive clinical trial management. We draw from our pool of biostatisticians, project managers, physicians, data technicians, and computer programmers to create a team whose collective experience best fits a client's needs. We provide statistical and computer services including database design and consulting, data entry, data forms design, automated data collection systems and statistical analysis and interpretation.
