Axio Research Welcomes Linda Nealy

Seattle, WA - May 2, 2008 -- Axio Research, a premier provider of biostatistics services, has announced today that Linda Nealy has been appointed as the organization's new Controller. Ms. Nealy will oversee financial accounting and project information systems.

"Linda's experience in the finance field, proven track record, and strong skill set will make her a valuable asset here at Axio," said Lee Hooks, Axio Research's CEO.

Ms. Nealy joins Axio Research following 8 years spent in the financial services sector with Seattle venture capital firm Buerk Dale Victor, while serving as the firm's Controller for the last 5 years of her tenure. Ms. Nealy also has experience in the realm of manufacturing and construction. Her previous positions have included assistant business manager, personnel administrator, staff accountant, and office manager. Ms. Nealy is a product of Seattle's own University of Washington as are Axio's founders and many current and former employees. She graduated from the UW with a Bachelor's of Arts in Arts and Sciences.

About Axio Research Acquisition Co. LLC

Axio Research was founded in 1979 as a corporation dedicated to scientific advancement and discovery. Our founders are internationally recognized experts in the fields of biostatistics, epidemiology, and medicine. During the past two decades, Axio's range of service has encompassed both government-sponsored clinical trials and full contract research services for commercial clients. Our senior scientists bring a wealth of knowledge and experience to all of our studies. Axio's talented group of employees is dedicated to working with our clients to produce thorough, comprehensive clinical trial management. We draw from our pool of biostatisticians, project managers, physicians, data technicians, and computer programmers to create a team whose collective experience best fits a client's needs. We provide statistical and computer services including database design and consulting, data entry, data forms design, automated data collection systems and statistical analysis and interpretation.
